

The support received from our thistle family members has been tremendous and greatly appreciated. You and our corporate sponsors make the Thistle great!

With Covid stealing our 100th Anniversary 2020/21 Season the board will now use our time and available resources to prepare for our 101st season, focusing on the future. We are investigating new programs and opportunities to draw additional people into our facility, increasing our incoming membership and revenue. We will also complete our summer maintenance projects to ensure the Thistle continues to make a great first impression. Last on our to-do list is securing new concession operators.

You, our club members, are irreplaceable. Please never underestimate how much your continued support of our club and its endeavors means to the Thistle Board and Staff!!

Keep an eye on your email, our Thistle website, and our Thistle social media pages for updates as our plans start to fall into place.
